

Wireless Internet Policy

I. Acceptable Use

- A. Use of Rye Public Library's wireless Internet access is governed by the library's Acceptable Use Policy, the same policy that governs the use of the Library's own computers. The Library remains a public building and use of their own equipment does not exempt users from these provisions.
- B. Due to the proliferation of wireless networks, some other networks may be accessible within the library walls. Use of these networks within the library are also covered by the Acceptable Use Policy.

II. Security

- A. The Rye Public Library offers an OPEN, UNSECURED wireless network for public use. The content on this network is not filtered or otherwise blocked.
- B. By using the library's wireless network, the user agrees that the library has no responsibility for any personal information that is compromised, or for any damage caused to users' hardware or software due to security issues or consequences caused by viruses or hacking.
- C. Users are responsible for ensuring that their computer has adequate protection against computer viruses, spyware, and other malware that their computer may be exposed to on the Internet or from email attachments.

III. Service

- A. Library technical staff may verify whether the library's wireless connection is up and running, but will not assist in making changes to the user's network settings or perform any troubleshooting on the user's computer.
- B. The library cannot guarantee uninterrupted wireless service.
- C. The library does not support public printing via the wireless network.
